

<https://youtu.be/GCdKPuOQ2h4>

In the world of creation we had the two extremes, except in the case of the Creator and Mithra, where we could never bring the functionality of the soul within the functionality of physicality. We had the physicality hidden within the soul or soul within the physicality, or in conjunction of the two. One would never have had the understanding of the totality where we could transit, but exist in both dimension.

With the new cycle, this is what Einstein said, "When you turn one atom the other atom changes". This new dimension will blow that field, which commonly exists between all the cells of the Universe, into that position. Which means? All the created things as a gift from the Creator, in a way, become able to transmute between the two dimensions.

There's a reason for this, and it's taken a long time for it to be done. And it has reached its pinnacle and it will be completed. It's already in the process of being completed. Was to take from the essence of the soul of every created things of the time, beginning of time, and essence of the creation of the Soul or the Centre, and create a new creature, which carries all the essence of the created in the New Soul.

We can, with it, go from the Soul of the Creator to the Soul of Physicality of Mithra. This is what the whole knowledge is, The Creator is the Universe and Mithra the Dimension

of Physicality of it, and its behaviour towards dimension of physicality and with the new system, every creature in the Universe will have the understanding of the capability to transmute between the two.

This has a lot of implications for all races in the Universe, because now they all become the same. In the coming time, we will see even change in the position of galaxies, position of universes. Many systems will move due to the changes which has been brought.

Man doesn't have that knowledge as such to monitor but, we will have the knowledge to see, we'll have the time to see. That with a new fields, as we call it, a lot of things will move in the right position to keep that ability to change between the two. That you don't need to kill to keep the physicality going, you don't need to steal.

And the soul doesn't need to be engaged or to escape to be out on its own, to be able to confirm its existence. And this, this process will complete very soon. That the whole of Universal Community will be able to have the benefit of the two, both in dimension of energy or matter, which never existed.

When we release the soul, we had to get rid of the physicality – you call it death. When we brought the soul, you had to give it a physicality and you go through the dimension of the birth, and then you have the whole commotion of bringing the two.

With a new system, both soul and the soul of physicality work together in the existence of dimension. We expect a massive change in the physical characteristics of human race in the coming century. Because, we change into the emotion of the physicality, the way as I said many times, but many never understood, "Indians and Pakistanis were the same, till one chose to take different kind of energy than the other one, and we see change of the feature."

Now, with the balance between the soul of the man and the soul of the physicality of man, many of us will change feature, without a shadow of a doubt. Man will change the faces of anger. Man will change the faces of hate. Man will change the face of war and warmongering. Because, we can satisfy the fields of it. And this is part of what will be, and what has already started and the completion of will be the birth of Mithra. Physical condition of birth of Mithra, in the physical dimension, not in myths. And then, we have the Soul of the Creator which the two will complete the cycle.

And then, as I said very recently to one of Knowledge Seekers, "Then we'll see if Adam could eat from the Apple of Love and giving. And then, we'll see how humanity will change. And the whole creation will change. We are at the verge of touching, much, much closer than anybody could think of, not only human race.
